## **DID YOU KNOW?**

- As the first visitors to the Telluride valley, the Ute Indians made their summer camps along the San Miguel River and hunted in the nearby mountains for elk, deer and mountain sheep.
- In the late 1800s, Telluride's wealth attracted the likes of Butch Cassidy and his "Wild Bunch," who began their brazen bank-robbing career at the San Miguel National Bank.

- Telluride and Mountain Village are linked by a spectacular 13-minute ride on a free gondola. This popular scenic attraction is simple transportation as well. It provides breathtaking views and free access to hiking and biking trails. Both the town and Mountain Village sit at the edge of the slopes and lifts of the ski mountain.
- The Town of Telluride is nestled in a box canyon enveloped by majestic peaks of the San Juan Mountains. Just eight blocks wide and twelve blocks long, this National Historic District is peppered with colorful Victorian homes, clapboard storefronts, boutiques, art galleries, bookstores, gourmet restaurants and historic buildings.
