DID YOU KNOW?

- The Snowmass ski terrain sits within the White River National Forest, a ruggedly mountainous area that is renowned for spectacular scenery and year-round outdoor recreation.
- The first ski trails were cut in 1961 and the official opening of "Snowmass-at-Aspen" was in December 1967.
- Snowmass is home to The Cirque lift, which is the nation's longest lift-served vertical rise and the first lift in the country to be operated solely by clean, renewable wind power.
